

Extracurricular Activities

April 15, 2011

Extracurricular events are events and activities that do not fall within the scope of the regular school curriculum, are officially recognized and sanctioned by the School Board, and for which students do not receive credit. The participation in extracurricular activities is a privilege earned through compliance with all specific applicable rules and regulations that are setup by each District.

The **Extracurricular Activities** form provides specific details that can be loaded and displayed to assist with determining whether a student is eligible for an Extracurricular activity. The form contains four different tabs which contain information for **Eligibility**, **GPA's**, **Activities** and **Probations**.

Please be aware that Eagle Software's objective is to provide their users with documented procedures, such as the one that follows, in an attempt to expedite the steps necessary to accomplish certain tasks within *Aeries*™. However, Eagle Software recognizes that each school and district using *Aeries*™ has established their own unique guidelines and policies.

By using these procedures you assume full responsibility for the appropriate application, the results of their use, any impact upon your database and conforming to all guidelines and policies that have been established by your school or district.

The **Eligibility** tab displays specific details that can be hand entered in regards to each student. The **Load** button is used to create a record in the **ECA** table for selected students. This function will also calculate the **Currently Enrolled** fields and the selected **Last Mark** and **Prior Mark** fields according to the Grade Mark selected.

All Activities that have been entered from the **Activities** form or **Activities** tab that is flagged in the **Type** field with code **1** will display at the bottom of the form.

CALCULATE CREDITS COMPLETED & CLASSES PASSED

When the **Last Mark** or **Prior Mark** fields are calculated all courses in a student's grades will be used to calculate the **Credit Completed** and **Classes Passed** fields.

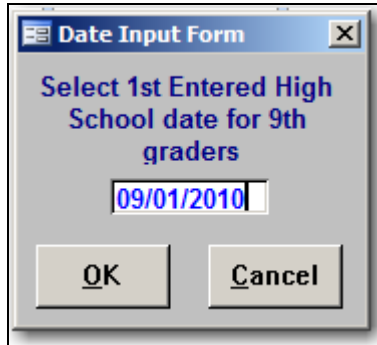

It is indicated that that only one PE class should be used in the calculation of the **Credit Completed** and **Classes Passed** fields. The Physical Education course that a student has in their Grades with the highest credits should be used to calculate **Credit Completed** and **Classes Passed**.

In order to use ALL Physical Education courses in this calculation they need to be flagged in the **PE** field. From the **Courses** form select the Course to be updated. Click the mouse on the **PE** field so the check mark displays. Press **Enter**. Flag all Physical Education courses.

When the **Load ECA Record** process is performed only one Physical Education class from Grades will be used. For example below Athletics and PE 9 have been flagged in the **PE** field but PE 9 below has 10.00 credits. The PE 9 course will be used in the calculations.
