

Aeries Web Version Teacher, Parent and Student Portal

Features in Progress

September 2, 2016

The items documented have been completed.

If you feel a feature is missing in the **Aeries Web Version Teacher/Parent Portal**, please check this link.

- [User Voice](#)

COMPLETED AND SHIPPED

Version 9/2/2016

Teacher Grades - This page now supports the "Require Comment" and Can Mark Page as Complete portal options.

Portal Options – "Require Comment" and "Can Mark Page as Complete" are new options for every marking periods on the Grades tab. If "Require Comment" is enabled, at least one comment is required for each student who has a mark. If "Can Mark Page as Complete" is enabled, the "Mark Page as Complete" button will display on the Teacher Grades page and teachers can click the button to mark all students as "grading complete."

Version 5/13/2016

Scores By Class - The "Show Trend" option has been added to this page. If checked, the Trend graphs will display for students that have 10 or more applicable scores. Currently, this option is only available for non-rubric gradebooks.

Version 3/18/2016

Standards Based Grades by Teacher - Users with "Admin" access to SBG can now load Standards-Based Grades from teacher gradebooks under the Teacher Emulation node. Also, rows are now highlighted as teachers work on individual students/standards.

Grades by Teacher - Users with "Admin" access to GRD can now load Grades from teacher gradebooks under the Teacher Emulation node. Also, rows are now highlighted as teachers work on individual students.

Version 2/12/2016

Gradebook - The ability to give read-only access to the teacher gradebook and for teacher gradebook emulation is available. This can be used in prior years for the Teachers group as well as in the current year to office staff that need the ability to emulate teacher gradebooks without changing anything. To enable Read-Only Gradebook Access, use the "Deny" permission level on the "Update" permission of the Gradebooks (GBK) security area.

Version 9/25/2015

Email Log - This is a new page designed for teacher to view the history of the emails they send out. It provides filters for date ranges and display the details of a specific email if they click on it.

Version 8/21/2015

Event Calendar – Teachers can add events for all their classes or for specific classes to be viewed by parents and students.

COMPLETED AND SHIPPED Cont.

Version 7/31/2015

Teacher Attendance - Dropped Students and Attendance Notes will now display. Two new Portal Options are available for Attendance Notes.

Version 7/10/2015

Teacher Attendance by Month - The ability for schools to configure Teacher Attendance to be taken one month at a time is now available. This feature is just like the same feature in ABI and is intended for Independent Study-Type schools. There is a Portal Option to enable this specialized view for teachers.

Version 6/26/2015

Parent Portal Access Restrictions - The ability to restrict parent and student accounts via codes in SSD has been added. This process works like it did in ABI.

Version 2/27/2015

Gradebook Terms - Teacher can now associate multiple terms with a single gradebook. Gradebook terms affect the display of the gradebooks. This will allow teachers to create one gradebook and select multiple terms. The assignments will display based on the assignment due date and gradebook term dates. Once a teacher selects multiple gradebook terms, the old Silverlight gradebook cannot be accessed and an error message will display.

Avery 5160 Labels reports - These reports are now available for teachers to print for their students. Additionally, office staff now have new options to print specific classes by period, teacher or course.

Version 12/12/2014

System Access Log – The Parent and Student Portal now has the ability to log parent and student page/report hits to the PHL table. A System Access Log page is also available for teachers to view parent and student page/report hit histories. Read permission must first be granted to the Teacher Portal Group for the new System Access Log area in Security.

Version 8/22/2014

Classroom Attendance – Lunch Counts can now be submitted from this screen for teachers.

File Uploads/Teacher Briefcase - Teachers now have the ability to upload documents and files into Aeries that are not associated with assignments.

Version 7/25/2014

Student Portal – Added student back pack feature that will be compatible with the HTML gradebook. This feature must be turned on in the "Portal Options -> Gradebook" tab.

Version 12/13/2013

Weekly Supplemental Attendance - Weekly Supplemental Attendance has been added as an option for teachers.

Daily Attendance Summary report - This report is now available for teachers. Also, users can select which sections\teachers to print when Sort By Teacher is selected.

Version 12/6/2013

Backup Gradebooks - System Administrators in Aeries.net can now **backup all gradebooks** in a school or across the entire district at once. "Backup Gradebooks" is available under School Info | Functions.

Version 11/15/2013

New reports: Gradebook Final Mark Analysis, Gradebook Assignment Analysis and Gradebook Progress By Class.

Teacher Standard Based Grades - The Teacher SBG screen now allows teachers to drill down to the gradebook scores that impacted each standard. Also added the ability to View Missing Marks.

Version 11/01/2013

Transfer Grade has been added to the Manage Students form. Teachers with linked gradebooks can now transfer their students' scores between gradebooks.

COMPLETED AND SHIPPED Cont.

Version 10/25/2013

Teacher Add New Grades - Teachers can now add and/or edit GRD records on the Student Grades page when granted those permissions

Version 10/10/2013

Custom Report Builder is now available as a "Beta". Core functionality has been completed and additional features will be released shortly

Version 9/27/2013

Teacher Attendance

- Reminder messages

- Attendance Summary columns

- Quick links for each student to their Profile and Attendance screens

- Lunch Count Submit button

Portal Option to allow teacher to replace verified absences

Secondary Standards Based Report Cards

Version 9/19/2013

Secondary Standards Based Grades - Secondary Standards-Based Grade Reporting is now supported in Aeries.net.

Version 9/13/2013

Create Substitute Teacher Accounts - This is a new page in Aeries.net that can be used to generate substitute Aeries.net teacher accounts. It is located under "School Info" | "Portal Account Management".

Print Standards Based Report Cards - Teachers now have the option to print this report for their students.

Version 8/30/2013

Email Gradebook Progress Reports - The ability to Email Gradebook Assignments has been added for teachers. The option is available on the Gradebook Assignments by Student and Gradebook Missing Assignments reports.

Version 8/23/2013

Gradebook - Narrative Grading has been added. This is equivalent to the "Scales" feature in ABI.

Classroom Attendance - The Classroom Attendance page now has the ability for those with Update Permissions to the ATT table to "Mark Attendance As Complete For This Teacher-Period" and thereby remove the current teacher-period from the Missing Attendance Report.

Version 8/16/2013

Add Portal Option: Hide Currently Scheduled Classes (SEC) for Future Terms from Parents/Students

Version 8/9/2013

Print Classroom Photo/Seating Chart - The Classroom Photo/Seating Chart Report has been added for teachers and office admins.

Version 8/2/2013

Supplemental Attendance for Teacher Portal

Version 7/26/2013

Password Complexity Requirement

Gradebook - Display Attendance on Date Assigned and Due Date

COMPLETED AND SHIPPED Cont.

Version 7/19/2013

Added gradebook "Push Assignments" option.
Added option to the "Mass Add Gradebooks" process to select terms
Added a new Portal Option "Allow Teachers to Add Students to Gradebook Before Attendance Initialized" that will allow teachers to import students before the school year starts into their gradebook.

Version 7/12/2013

Added gradebook "Import Assignments" option

Version 6/28/2013

Added new Gradebook menu system for the Gradebook. It has been changed to be icon-based and make common functions quick and easy to use.
