

Aeries Mobile

Introduction

Aeries Mobile is one piece of the **Aeries Student Information System Solution**. This state-of-the-art software system allows school personnel to quickly sync student and class data down to their **Windows Mobile** (Pocket PC) device.

PD	SM	Course ...	Teacher	Room
0	Y	Weight...	Sanders	GYM
1	S	Bus. Se...	Wright	B3
2	S	Civics Cp	Cooper	T7
3	Y	PE	Ward	GYM
4	Y	English ...	Thatcher	C9
5	Y	Physics...	Alvarado	D4

System Highlights

- Existing Eagle Software Support
- Integrated System
- Easy Implementation
- Cost Effective
- Fast Data Syncing
- Scalable
- Secure
- Leading Edge Technologies
- Low Maintenance
- Comprehensive and Flexible Features

System Features

- Student Demographics and Photographs
- Emergency Contact Information
- Student Medical History
- Class Schedules
- Recent Attendance
- Discipline & Counseling History
- Locker Assignments & Combinations
- Class Lists (by teacher and period)
- Bell Schedule Information
- Data from Multiple Schools

Aeries and Aeries Mobile Meet the Complex Needs of Districts

Aeries Mobile provides great features and functionality and is also flexible and secure. Aeries Mobile uses **Leading Edge Technologies** to provide a truly unique solution that fully integrates with the **Aeries SQL Database** without the need to create text files and copy them all around your network.

Flexible Uses

- Field Trips
- Dances
- Sporting Events
- On and Off Campus Security
- Emergency Management

Security and Integration

- Direct Data Syncing to SQL Server (no text files)
- Can Sync through Docking Station or 802.11 Wireless
- Active Directory Integration
- SQL Security
- Data Encryption
- Application Password
- Barcode Reader Integration

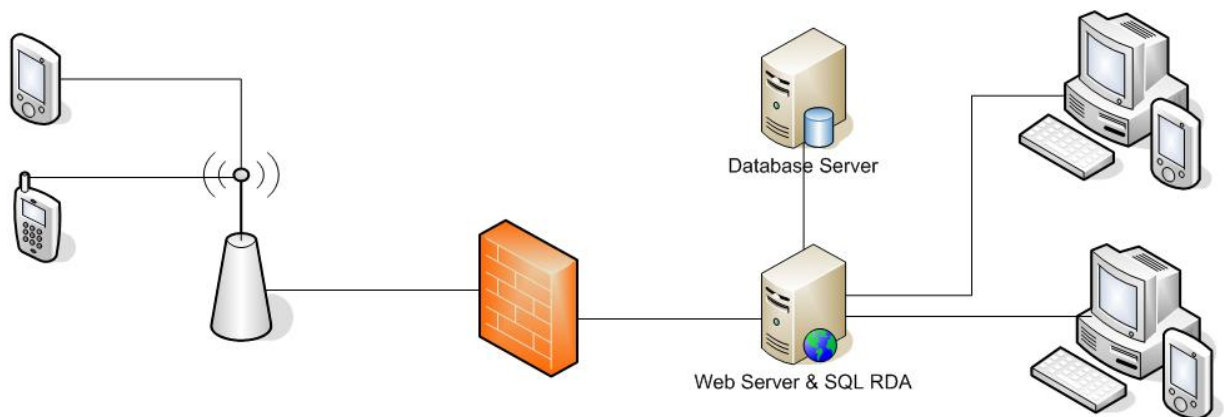

Real World Solutions

"I had Aeries Mobile on a field trip when a girl got stung by a bee and was showing signs of anaphylactic shock. I was able to easily provide the medical personnel information regarding her medical history and allergies to medications. I was also able to contact her mother on her cell phone to apprise her of the situation. I would not have had all that information on my hip if we had to bring all the student emergency cards."

"We used Aeries Mobile at a Prom to identify students who claimed to have 'lost' their school ID cards. Most were telling us the truth, but with the pictures and the schedules in Aeries Mobile, we were able to avert a few students trying to 'crash the party'."

Innovative System Architecture

The unique design of Aeries Mobile helps get critical student information into the hands of people who need it by simplifying the communication and syncing process.
