

Aeries Features Overview

Aeries SIS – Integrated, Non-Modular Approach

Aeries is a single integrated SIS software solution. There are no individual modules or additional components within Aeries. This includes all mandated state and federal reporting requirements, and the Aeries Browser Interface for parents, teachers, administrators and students. New features are fitted seamlessly into Aeries and released to our clients along with updated documentation and integrated online help. Our integrated approach streamlines implementation and updates, simplifies system administration, and provides cost effective support for the district. Some of the core features of Aeries are:

Student Demographics: Medical, Discipline, Siblings, Contacts, Fees/Fines, Interventions / Retentions, Activities & Awards, Free/Reduced Lunch, Work Permits, Special Education / CASEMIS, Lockers, Photos, ID Cards, Supplemental Data (District Defined), Language Assessment.

Attendance: Aeries handles all valid California attendance accounting and reporting processes: Daily/Period, Alternative/Continuation/Summer, Absences, Truancy & SARB Letters, Course Attendance, Enrollment History.

Other Aeries Features: Textbook Inventory, Address Validation, Multiple Label Options, Home Language Survey, Ad-Hoc Query Features, Report Printing Packets.

Scheduling: Walk-In Scheduler, Master Schedule Board, Course Request Packets, Schedule Next Year in Current Year Database, Saves/Restores Multiple Schedules, Highly Qualified Teacher Processing, Staff Credentials, Interactive Schedule Builder.

Grade Reporting / Transcripts: Up to 15 GPAs, User-Defined Report Cards & Transcripts, Graduation Requirements, UC/CSU Eligibility, Transcript Requests, Standards Based Grade Reporting, Progress Reporting, Tri-fold Mailers.

Aeries Security: Role-Based User Accounts, District-Controlled Access, Field Level Security, Parent Account Management System (PAMS), password expiration, strong password enforcement, and password hashing.

Testing & Assessment: Pre-ID & Load of State Tests, CAT 6, Aprenda, CAHSEE, CELDT, ACT, SAT I & II, CST, GSF, Dynamic & Comprehensive Reporting, Multi-Student Data Profile, Cluster/Strand Analysis. Physical Fitness.

State & Federal Reporting: CALPADS, Attendance, ADA, Enrollment, Carl Perkins, Morgan Hart CSR, Crime Report, Civil Rights, ASAM, NCLB, CallPass Submission.

Source Code Availability: Source code is made available to every Aeries customer, and new versions of the source code are distributed with every new version of the software.

Aeries SIS – Choice of Implementation Topology

- Aeries.net** – Fully Web-based, multiple platforms, centralized SQL database
- AeriesCS** – Client Server, Windows administrative workstations, centralized SQL database
- Aeries LAN/WAN** – Distributed Access databases, District consolidation, Windows workstations

Aeries Browser Interface (Teacher, Parent, & Student Portal)

For teachers, parents, and students, the Aeries Browser Interface (ABI) is available for use through any modern browser. This web-based application outputs standard HTML and can be encrypted using SSL to generate HTTPS. Supported browsers must allow cookies and support JavaScript. These include Internet Explorer, FireFox, and Netscape on a Windows workstation, and FireFox, Safari, and Netscape on a Mac.

Aeries Mobile

Aeries Mobile is a Windows Mobile 5.0 based application for the displaying student information housed in the Aeries Student Information System (Client Server districts). AeriesMobile is a disconnected method for viewing student data. You sync data at regular intervals and then disconnect the device so it can be used off site, on site, or anywhere the need might arise.
