

Eagle Software Regional Workshop

Student Scheduling -Two Days

DAY 1 Content: All day workshop to discuss the student scheduling process from start to finish; creating scheduling data & setup tables, collecting, entering course requests, entering scheduling master schedule, scheduling students, printing and interpreting the reports associated with each step in the scheduling process.

DAY 2 Morning Content: Discussion regarding how to use Aeries to schedule students into different groups (teams, houses, academies, etc.). The application of the Scheduling Group, Team Course Group, and Team Number fields will be discussed. Exploratory and wheel classes will also be discussed, including options on how to schedule and modify these classes. NOT to include basics of the student scheduling.

DAY 2 Afternoon Content: Discussion of the theory of building a better master schedule. The Aeries Interactive Scheduling Master Schedule Builder will also be included.

DAY 2 WILL NOT COVER basic student scheduling. Previous scheduling experience highly recommended.
