Physical Fitness Setup Form

The District version will now have a Physical Fitness Setup form that will allow the District to setup which Physical Fitness Tests will be taken for each Testing Administration. After the setup selection is complete they can be Pushed out to the school databases.

The School version will also have the same form available but can only be updated by users with permissions to the PFS table.
After the setup selections are complete click the mouse on the **Push to Schools** button and the following form will display.

This will allow you to select the schools that you will be pushing the setup selections to. After you click the mouse on the **OK** button a message will display as each school is updated.

NOTE: If there are different tests taken by Grades 5, 7 and 9 the setup MUST be completed for each grade separately and pushed to the schools individually for each grade.
Physical Fitness Test Results

If selections have been made on the Physical Fitness Setup form, the Physical Fitness Test Results form will now only display these selections.

Any field that was de-selected on the Physical Fitness Setup form will be locked and cannot be accessed. The field will display grayed out on the form. Any value that displays red within a field indicates that this field was locked but now contains data and needs to be removed.
ABI Options  

The **Aeries Browser Interface Options** form will now display the **Fitness** tab. The **Fitness** tab will allow P.E. Teachers or Teachers loaded in the **STU.CU** field to view the Physical Fitness test from ABI.

After selecting to **Allow PE Teachers to View PFT** a date range window will display to select a time frame to setup when the Physical Fitness test will be taken by grade.

![Aeries Browser Interface Options](image)

The option is available to select either PE Teacher or Elem Teacher. If PE Teacher is selected CRS field and Value will display to select a field and value in the CRS table to indicate which courses are PE Courses. The teachers assigned to teach these courses will be able to add scores for the Physical Fitness test from ABI.
When Elem Teacher is selected ABI will use the teacher in the **STU.CU** field. These teachers will be able to add scores for the Physical Fitness test from ABI.

This option will work the same with an Elementary with Master schedule with one period assigned and the teacher number has been loaded into the **STU.CU**.

**NOTE:** It is up to each school as to who administers or enters the Physical Fitness information. Even an Elem w/ MST can have their PE teacher enter the scores if they have a section in MST and a WEB account.

**ABI Physical Fitness**

The Aeries Browser Interface will now display **Physical Fitness** in the dropdown from the **Grades** tab.
After clicking the mouse on **Physical Fitness** the following form will display. The Physical Fitness test scores can now be hand entered from this form.
