

“As soon as my son’s school made the Aeries parent portal available, I started using the system. It’s very user friendly. I’ve been using the system for the majority of my son’s high school career. He just graduated this year.”

“As a parent I appreciated the ability to easily log into the Aeries Parent Portal and view my son’s attendance history, detailed assignments and grade information. It’s always a good feeling knowing that your student is actually in class sitting at his desk.”

Placentia-Yorba Linda USD Parent Shares Positive Experience Using the Aeries Student Information Systems Parent Portal

The Aeries Parent Portal provides Parents web access to their student’s class work and student data. Jill Flores is the proud parent of a recent Placentia-Yorba Linda USD graduate. Jill shares her feedback regarding her experience using the Aeries parent portal.

“As soon as my son’s school made the Aeries parent portal available, I started using the system. It’s very user friendly. I’ve been using the system for the majority of my son’s high school career. He just graduated this year.”

The parent portal is designed to function easily for anyone with basic computer skills. Jill discusses her ability to frequently and effortlessly log in and review her son’s grade and attendance information.

“As a parent I appreciated the ability to easily log into the Aeries Parent Portal and view my son’s attendance history, detailed assignments and grade information. It’s always a good feeling knowing that your son is actually in class sitting at his desk.”

“With my son knowing that I could monitor his assignments and grades on-line, that alone created a great sense of awareness for him. It really instilled a sense of ownership and personal accountability for the results we could all see on-line through the portal. With all of us checking regularly, we always knew ahead of time when tests or assignments were due. There were no surprises.”

Jill commented that overall communication greatly increases when student data and progress information is shared and easily accessible. “You can email the teacher directly from the portal if you have a question in real time. Everyone is communicating in real time, Teacher, Student, Parent. The portal’s capabilities increased my overall communication as a parent with all my son’s teachers.”

Jill Flores’ Favorite Aeries Parent Portal Features

- Viewing Student Grades
- Viewing assignments and tests dates on the calendar
- Reviewing Attendance History
- Direct email contact with teachers
